

PROCESS

This project started with FEECO performing lab testing and ultimately led to us supplying all of the key processing equipment, system design, and start-up assistance for the facility. All project communication and implementation was accomplished over the internet/email due to the customer's limited English speaking skills.

PROJECT SPECS

Customer:
DKT

Equipment Supplied:

- Pin Mixer
- Disc Pelletizer
- Rotary Dryer
- Chain Mill

Project Location:
Thailand

Industry:
Aquaculture

Material:
Gypsum

Project Engineer:
FEECO International, Inc.
