

PROCESS

The 30" (0.8m) conveyor belts were designed to handle 250 TPH of frac sand.

The system delivers sand to any of the nine (9) product silos from three different production streams.

PROJECT SPECS

Customer:

Equipment Supplied:

- (9) 30" (0.8m) wide Inclined Belt Conveyors
- (4) 30" x 108' (0.8 x 33m) long Reversing Shuttle Conveyors

Project Location:

Chippewa Falls, WI, USA

Industry:

Mining

Material:

Frac Sand

Project Engineer:

FEECO International, Inc.
