

PROCESS

FEECO assisted Acheson-Glover in developing a new product that utilized previously unsalable fines from their quarry operations. Limestone soil amendment pellets were created. We supplied the key process equipment listed, as well as assisted with process design and performed extensive site service to train new operators.

PROJECT SPECS

Customer:

Acheson & Glover

Equipment Supplied:

- 40" (1m) Pin Mixer
- 14' (4.3m) Disc Pelletizer
- Fluid Bed Dryer/Cooler
- Rotary Pre-Dryer
- Chain Mills

Project Location:

Northern Ireland

Industry:

Ag Lime/Agricultural Lime

Material:

Limestone Fines

Project Engineer:

FEECO International, Inc.
